1 February 2008

Dear \_\_\_\_\_

As you already know, we are part of a programme from the National Strategy. The title of the programme is BCAP, focussing on raising the achievement of pupils of African descent .

The programme was set up after careful analysis of National trends in terms of children's achievement, and the aim is to improve good practice in a variety of ways and to ensure good communication between parents/teachers and the school to raise achievement.

With this in mind, we have devised a home/school progress card which we hope will encourage regular dialogue regarding your child's targets and progress.

In order to share this with you and discuss it, I would like to invite you into school for a short meeting with me. I will be phoning you soon to arrange this.

Yours sincerely

**CLASS TEACHER**
